Press Release - 2024 Year 11 Examination Results

Well-deserved congratulations to London Nautical School's outgoing Year 11 after they achieved a superb set of results in this year's GCSE and Level 2 BTec's. Students made highly positive progress in subjects across the curriculum range. Our Chemists, Biologists and Physicists made more than two and a half grades progress against expected rates, whilst those taking Spanish achieved an additional grade in comparison to their peers across the country.

BTec Sport and GCSE Art also witnessed rates of progress significantly above national expectations, whilst results in Maths were marked by high attainment levels including five grade 9s. Students achieved well across the year group but particularly notable were the results achieved by Rezwan A and Tomas B who were both awarded top level grades in 10 subjects including eight and five grade 9s respectively.

Collectively the students' results mean they are well placed to move forward with the next steps in their educational journeys with confidence, and with many of them electing to remain at London Nautical to undertake one of our unique academic, sporting or maritime pathways.
